NOTES: Student semester hours, SSHs, are calculated by multiplying the number of enrolled students in a class by the number of class credits. Thus, 30 students enrolled in a three-credit course generate 90 SSHs.

SSHs generated by COOP, student teaching, and cross-listed courses have been redistributed to the appropriate departments for the end of the semester or final figures.

Center of Pedagogy graduate and doctoral SSHs are included in the College total.

Figures in the **BEGIN** column of the current semester are the number of SSHs at the beginning of the semester and include everyone registered as of the 10th day of classes. They are NOT adjusted for readjusted cooperative education, etc.

All columns labeled **FINAL** are actuals, calculated at the end of the semester with all students receiving WD grades removed from the database. As well, these figures reflect the redistribution of SSHs for student teaching, cooperative education, and cross-listed courses.

The % semester change reflects the difference between the beginning of the semester SSH and the final, end of semester actuals.

NOTES: Student semester hours, SSHs, are calculated by multiplying the number of enrolled students in a class by the number of class credits. Thus, 30 students enrolled in a three-credit course generate 90 SSHs.

SSHs generated by COOP, student teaching, and cross-listed courses have been redistributed to the appropriate departments for the end of the semester or final figures.

Figures in the **BEGIN** column of the current semester are the number of SSHs at the beginning of the semester and include everyone registered as of the 10th day of classes. They are NOT adjusted for readjusted cooperative education, etc.

All columns labeled **FINAL** are actuals, calculated at the end of the semester with all students receiving WD grades removed from the database. As well, these figures reflect the redistribution of SSHs for student teaching, cooperative education, and cross-listed courses.

The % semester change reflects the difference between the beginning of the semester SSH and the final, end of semester actuals.

NOTES: Student semester hours, SSHs, are calculated by multiplying the number of enrolled students in a class by the number of class credits. Thus, 30 students enrolled in a three-credit course generate 90 SSHs.

SSHs generated by COOP, student teaching, and cross-listed courses have been redistributed to the appropriate departments for the end of the semester or final figures.

Following SIS+ coding, special programs include Cooperative Education, Honors, Institute Philosophy for Children, International Studies, Latin American and Latino Studies. Since Women's Studies has become a major in the College of Humanities and Social Sciences, it is manually added to the College's total. In earlier years, Justice Studies SSHs were also part of this section. It, too, is now found in the totals for the College of Humanities and Social Sciences.

Figures in the **BEGIN** column of the current semester are the number of SSHs at the beginning of the semester and include everyone registered as of the 10th day of classes. They are NOT adjusted for readjusted cooperative education, etc.

All columns labeled **FINAL** are actuals, calculated at the end of the semester with all students receiving WD grades removed from the database. As well, these figures reflect the redistribution of SSHs for student teaching, cooperative education, and cross-listed courses.

The % semester change reflects the difference between the beginning of the semester SSH and the final, end of semester actuals.

NOTES: Student semester hours, SSHs, are calculated by multiplying the number of enrolled students in a class by the number of class credits. Thus, 30 students enrolled in a three-credit course generate 90 SSHs.

SSHs generated by COOP, student teaching, and cross-listed courses have been redistributed to the appropriate departments.

Totals may have added SSHs included; therefore, undergraduate and graduate SSHs may not add to total.

Figures in the **BEGIN** column of the current semester are the number of SSHs at the beginning of the semester and include everyone registered as of the 10th day of classes. They are NOT adjusted for readjusted cooperative education, etc.

All columns labeled **FINAL** are actuals, calculated at the end of the semester with all students receiving WD grades removed from the database. As well, these figures reflect the redistribution of SSHs for student teaching, cooperative education, and cross-listed courses.

The % semester change reflects the difference between the beginning of the semester SSH and the final, end of semester actuals.
