Notes: Student semester hours (SSH) are calculated by multiplying the number of enrolled students in a class by the number of class credits.
 SSHs are actuals, or figures calculated at the end of the semester. Thus all students receiving WD grades have been removed from the count.
 Summer sessions are combined and are as of the first week in September.
 FTES, or Full-Time Equivalencies, are calculated by dividing undergraduate SSHs by 16 credits and graduate SSHs by 12 credits per semester.
