*Includes students who graduated prior to September. Therefore, students who graduate in January are considered graduating in five years. Graduation rates are cumulative; thus, the most recent graduation rate includes those who graduated in prior semesters.
Totals include all students for whom ethnicity information was or not available; therefore, subset numbers may not add to the total.
International or non-resident students are separated out beginning with the 1995 cohort.
Source: Institutional Research Office; Fall 1993-Fall 1997 cohorts are reconstructed from SURE enrollment files. All other cohorts are constructed from the fall semester frozen extract files.
