

THE FACT BOOK

Montclair State University is New Jersey's second largest university, and growing -- in the number of student applications, enrollments, degrees offered, student services and building facilities. It has a vibrancy and excitement that is particularly felt in the classrooms where faculty and students are actively engaged in teaching and learning.

The fact book presents a picture of the university in facts and figures. Information like this contributes to our understanding of how the University is growing and moving forward.

The fact book also serves as a resource for official information about the Montclair State University community, as well as a means of systematic information sharing across the campus. The Office of Institutional Research produces the fact book yearly, updating existing tables and adding new ones as needed.

ACKNOWLEDGEMENTS

Putting together a document like this takes many hands. I cannot thank everyone individually, but to all those who entered information about MSU into the SIS, HRS or FRS systems -- thanks; and to those who synthesize that information into reports, many thanks. I would like to thank John Lefler: Director of Summer Session and Special Programs; Mike Scala: Director of Sports Information; Frank Cuzzo: Director of Financial Aid; Jeanette Hanlein: Data Manager, University Advancement; Carol Lange: Technical Coordinator, Human Resources; Russell G. Muter: Controller; Dough Cooper: Director of Architectural and Engineering Services for providing information in a timely fashion. There are several colleagues in my division, whose efforts I would like to acknowledge. Thanks go to Ms Elizabeth J. Keagy, graduate assistant, who entered so much of the table information and willingly checked all these figures as well as other editing duties and Mr. Daniel Sisco, Office Specialist, who put the information on the Institutional Research web page and produced the graphs as well as other editing duties.

Finally, your comments and suggestions are welcome and whenever possible they will be incorporated into the next fact book.
