Founded in 1908, Montclair State University is New Jersey’s second largest university. It offers all the advantages of a large university—a comprehensive undergraduate curriculum with a global focus, a broad variety of superior graduate programs through the doctoral level, and a diverse faculty and student body—combined with the individual attention of a small college. Through its six colleges and schools, the University offers close to 300 majors, minors, concentrations, and certificate programs, while remaining accessible and affordable. Recognized as offering one of the best educations in New Jersey and the region, Montclair State provides an educational environment with an extensive range of highly-regarded learning and cultural opportunities.

Located just 14 miles from New York City on a beautiful 246-acre campus in suburban Montclair, NJ, Montclair State University with a diverse student population of more than 18,000, has an energy that inspires and motivates students both inside and outside the classroom. Exciting academic programs and a first-rate faculty combine with a variety of events and on-campus resources including a world-class performance theater, art galleries, cyber café, athletic events, a new recreation center, and easy access into NYC, to give students an abundance of options right at their fingertips. For students interested in intercollegiate sports, the University’s 17 NCAA Division III sports teams provide one of the best athletic training programs in the state.

Sticker Price: How much does it cost on average?

Typical Undergraduate Costs for 2011-12 without Financial Aid (Full-Time, In-State Students)

Total Typical Cost of Attendance: $23,108.00

Out-of-State & Other Costs

More Information

The cost to attend Montclair State University varies based on the individual circumstances of students and may be reduced through grants and scholarships.

How much would I pay?

Financial Aid: How much help is there to pay?

Scholarships & Grants

- 75% of 2010-11 full-time undergraduates received need-based grants or scholarships; the average award for the year was $4,319.00. Scholarships and grants are financial aid that does not need to be repaid and is sometimes referred to as gift aid.

Annual Need-Based Loans

- 63% of 2010-11 full-time undergraduates received need-based work-study and/or loans (not including parent loans); the average loan for the year was $4,536.00. Loans need to be repaid. Typically, repayment starts once you are no longer enrolled full-time. Please refer to page 12 of the Funding Education Beyond High School guide on the US Department of Education’s Federal Student Aid website for more information about Financial Need.

Percent of 2010 Full-time Beginning Students Receiving Each Type of Financial Aid
NOTE: Students may receive aid from more than one source.
This on-line tool will give you an estimate of your cost to attend this college or university in three simple steps.

1. Carefully read and agree to the legal disclaimer.
2. Fill out a simple form about your background and plans for housing while in school.
3. Fill out a simple form about your family's finances.

All information gathered to calculate the net price is anonymous and cannot be used to identify an individual user.

Montclair State University

Based on the information you enter, the college cost estimator will return an estimate of typical expenses for a student like you to attend this college or university and an estimate of financial aid that you may be eligible to receive from this college or university. The estimates will help you determine your "net cost" - your likely out-of-pocket expenses - to attend this college or university. Please contact the Montclair State University financial aid office for more details.

Step 1. Legal Disclaimer

Please read. By clicking below, I acknowledge that the estimate provided using this estimator does not represent a final determination, or actual award, of financial assistance, or a final net price; it is an estimate based on price of attendance and financial aid provided to students in a previous year.

Price of attendance and financial aid availability change from year to year. The estimates shall not be binding on the Secretary of Education, the institution of higher education, the State, the VSA, APLU, AASCU, or the VSA's contractors. Students must complete the Free Application for Federal Student Aid (FAFSA) in order to be eligible for, and receive, an actual financial aid award that includes federal grant, loan, or work-study assistance. For more information on applying for federal student aid, go to [http://www.fafsa.ed.gov/](http://www.fafsa.ed.gov/)

Basic Type
Master’s Colleges and Universities (larger programs)

Size and Setting
Large four-year, primarily residential

Enrollment Profile
High undergraduate

Undergraduate Profile
Full-time four-year, selective, higher transfer-in

Undergraduate Instructional Program
Arts & sciences plus professions, high graduate coexistence

Graduate Instructional Program
Single doctoral (education)

More Information
Student Activities and Involvement at MSU

Students who are actively involved in their own learning and development are more likely to be successful in college. Colleges and universities offer students a wide variety of opportunities both inside and outside the classroom to become engaged with new ideas, people, and experiences. Institutions measure the effectiveness of these opportunities in a variety of ways to better understand what types of activities and programs students find the most helpful.

Institutions participating in the VSA program measure student involvement on campus using one of four national surveys. Results from the one survey are reported for a common set of questions selected as part of VSA. Following are the selected results from the National Survey of Student Engagement (NSSE). The questions have been grouped together in categories that are known to contribute to student learning and development. The results reported below are based on the responses of seniors who participated in the survey.

Group Learning Experiences
- 91% percent of seniors worked with classmates on assignments outside of class.
- 52% of seniors tutored or taught other students
- 15% of seniors spent at least 6 hours per week participating in co-curricular activities such as student organizations and intramural sports

Active Learning Experiences
- 78% of seniors spent at least 6 hours per week preparing for class
- 13% of seniors worked on a research project with a faculty member
- 50% of seniors participated in an internship, practicum, or field experience
- 48% of seniors participated in community service or volunteer work
- 9% of seniors participated in study abroad
- 98% of seniors made at least one class presentation last year

Institutional Commitment to Student Learning and Success
- 93% of seniors believe this institution provides support for student success
- 60% of seniors rated the quality of academic advising at this institution as good or excellent
- 61% of seniors reported that this institution provided help in coping with work, family and other non-academic responsibilities
- 94% of seniors reported working harder than they thought they could to meet an instructor’s standards or expectations

Student Interaction with Campus Faculty and Staff
- 46% of seniors believed that the campus staff were helpful, considerate, or flexible
- 84% of seniors believed that faculty are available, helpful, or sympathetic
- 95% of seniors reported that faculty members provided prompt feedback on their academic performance
- 71% of seniors discussed readings or ideas with faculty members outside of class

Experiences with Diverse Groups of People and Ideas
- 63% of seniors reported that they often tried to understand someone else’s point of view
- 85% of seniors reported their experience at this institution contributed to their understanding people of other racial and ethnic backgrounds
- 65% of seniors often had serious conversations with students of a different race or ethnicity

Student Satisfaction
- 76% of seniors would attend this institution if they started over again
- 81% of seniors rated their entire educational experience as good or excellent
- 78% of seniors reported that other students were friendly or supportive

More Information
Student Learning at Montclair State University

All colleges and universities use multiple approaches to measure student learning. Many of these are specific to particular disciplines, many are coordinated with accrediting agencies, and many are based on outcomes after students have graduated.

Procedures for the assessment of student learning in all majors have been developed and promulgated University-wide. As might be expected, however, the assessment of learning in the major is most highly developed and routinized in those degree programs that are nationally accredited. Consequently, while comprehensive, program-level assessment may be most highly advanced in Business, Teacher Education, Computing Sciences, Chemistry, Dance, Theater, and Music, it is practiced across-the-curriculum. Assessments include a variety of direct measures of student learning, including portfolios; standardized tests; internship evaluations; student, alumni, and employer surveys; and various other measures.

The University’s General Education curriculum, which is driven by clearly enunciated learning goals, is assessed using nationally-normed, standardized tests. During AY2008-09, the achievement of important General Education learning goals was evaluated using ETS’ Measure of Academic Proficiency and Progress (MAPP) test. This instrument was used to assess three core skill areas: critical thinking, reading, and writing. Results were shared with Colleges and Schools, and faculty are using them to “close-the-loop” by analyzing how these findings might best improve curriculum and pedagogy.

During AY2010-11, the University assessed student learning in its general education program by using the Collegiate Learning Assessment (CLA). This instrument was administered to freshmen in the fall, and graduating seniors in the spring, in hopes of quantifying the “value-added” by Montclair’s general education curriculum. Results are expected in late summer, 2011, and they will be analyzed by the University’s General Education Committee to determine whether learning outcome goals are being met.

Learning Assessment Examples

Pilot Project to Measure Core Learning Outcomes

Colleges and universities participating in the College Portrait measure the typical improvement in students’ abilities to think, reason, and write using one of three tests. This is part of a pilot project to better understand and compare what students learn between their freshman and senior years at different colleges and universities.

2010 - 11 Results from the Collegiate Learning Assessment

The Collegiate Learning Assessment (CLA) measures critical thinking, analytic reasoning, problem solving, and written communication using a performance task and an analytic writing task. The scores from the tasks are reported separately below.

Test Administration Process

Test Information

Performance Task Results for First-time, Full-time Students

The increase in learning on the performance task is above what would be expected at an institution testing students of similar academic abilities.

Freshman Score: 1033
Senior Score: 1198
CLA score range: 400 to no maximum score.

Average EEA scores for tested students
Freshman Score: 1026
Senior Score: 1013

Analytic Writing Task Results for First-time, Full-time Students

The increase in learning on the analytic writing task is at or near what would be expected at an institution testing students of similar academic abilities.

Freshman Score: 1113
Senior Score: 1155
CLA score range: 400 to no maximum score.

Average EEA scores for tested students
Freshman Score: 1026
Senior Score: 1013
