[1] Beginning in fall 2006, counts of applications, completed applications, acceptances and enrolled students are for individuals who would be first-time at the institution at the graduate level. Counts from previous years included students already enrolled at the graduate level who applied for and entered a new graduate program.

[2] The numbers do not include students who were accepted and enrolled in Teaching Middle Grades Mathematics (TMGM) certificate program. The 66 students who were enrolled in this program are not reflected in the admissions report but are counted in the fall 2003 semester enrollment report.
