NOTES: Student semester hours, SSHs, are calculated by multiplying the number of enrolled students in a class by the number of class credits, thus, 30 students enrolled in a three credit course generate 90 SSHs.

This report combines all summer sessions and presents figures as of the first week in September .

Graduate students taking undergraduate courses are counted as graduate students because they pay graduate tuition even though they are enrolled in undergraduate courses. Thus graduate students taking courses in the department of Classics and General Humanities will generate graduate sshs even though this department only has undergraduate programs.

As of Summer 2004, information is segregated for Doctoral programs and for majors that do not belong to a department but reside in a school.
